FOREWORD

Public Law 100–656, the Business Opportunity Development Reform Act of 1988, amended the Small Business Act to place new emphasis on acquisition planning. The law requires agencies to compile and make available projections of contracting opportunities small and small disadvantaged firms may be able to perform.

In response to this requirement, the Department of State Forecast of Contract Opportunities includes projections of anticipated contract actions above the simplified acquisition threshold that small businesses, small disadvantaged businesses, women-owned small businesses, HUBZone small businesses, and service-disabled veteran-owned small businesses may be able to perform under direct contracts with the Government, or through subcontracting opportunities. This Department-wide forecast of contract opportunities expands upon individual efforts already implemented at Department of State aimed at enhancing competition in contracting. The forecast consolidates anticipated procurements at various State Department acquisition activities.

IMPORTANT NOTICE

The forecasts and estimates are intended only to assist small business firms with better planning and decision making in addition to locating additional sources of supplies or services. These estimates are subject to revision depending on need and funding. This information **DOES NOT REPRESENT A PRE-SOLICITATION SYNOPSIS, DOES NOT CONSTITUTE AN INVITATION FOR BID OR REQUEST FOR PROPOSAL, AND IS NOT A COMMITMENT BY THE GOVERNMENT TO PURCHASE THE DESCRIBED PRODUCTS AND SERVICES.**

As noted, the Forecast contains all currently planned actions for FY–2010 and 2011 that exceed the simplified acquisition threshold of \$100,000. When the acquisition is initiated, the Contracting Officer will make a final determination regarding suitability for set-aside action. **Final set-aside determinations will be noted at regular intervals for planned actions in updated Forecasts at <http://www.state.gov/m/a/sdbu>.**

Vendors are advised that **only duly constituted Contracting Officers have authority to contractually bind the Government.** Information on specific procurements should only be obtained from contracting officials.

DEPARTMENT OF STATE FORECAST OF CONTRACT OPPORTUNITIES

Fiscal Year 2010-2011

The procurements described in this forecast are expected to be solicited in fiscal year 2009 and subsequent fiscal years as indicated. The described items are based on the best information available at time of publication. All projected procurements are subject to revision or cancellation. Final decision regarding the extent of competition; potential 8(a), HUBZone, service disabled veteran-owned, or small business set-asides; estimated value; or any aspect of the procurement action will not be made until each procurement is initiated. **This forecast data is for planning purposes only;** it does not represent a pre-solicitation synopsis or constitute an invitation for bid or request for proposal, nor is it a commitment by the Government to purchase the described supplies and services.

The forecast is divided by State Department acquisition activity. Each activity listing is sorted by a North American Industry Classification System (NAICS) code and then by dollar amount (\$ RANGE VALUE) within that product and service code.
